Filipina Caucus @ Rayburn House

Congressional Dialogue where issues important to Filipina women are discussed with Members of Congress and congressional staff. The dialogue provides both parties the opportunity to explore strategies for civic engagement and advocacy and to form relationships for further learning of how the legislative process works.

The Filipina community is a vital group. We will develop action steps in strengthening our public and private partnerships that leave a positive footprint. We will model the way with initiatives that bring meaning and purpose, cultural awareness and sensitivity to the workplace.
